LICENSES

Unlocks Tenant Manager and General user in the Integrated Centralized

Control Web.

- LIC-PWeb Master
  - Master Controller license for AE-200A and EW-50A
- LIC-PWeb Expansion
  - Expansion Controller license for AE-50A and EW-50A

INTEGRATED CENTRALIZED CONTROL WEB

By using the Integrated Centralized Control Web, up to 2,000 air conditioning units connected up to 40 AE-200/AE-50/EW-50 centralized controllers can be monitored and operated.

USER MANAGEMENT FUNCTION

In addition to a building manager that can manage all air conditioning units, you can set tenant managers that can manage specific air conditioning units and general users that can perform only monitoring and operation. Since the functions that can be used differ for each user, this facilitates user management that meets requirements.

Note: Up to 50 users can access the Integrated Centralized Control Web at the same time. While 50 users are accessing the Integrated Centralized Control Web, no more users can access the Integrated Centralized Control Web.

User	Number of users
Building manager	1
Tenant manager	200
General user	2000
